LOOM in lime and plum

Like a spring greeting on your desk: the LOOM series in the new on-trend shades of lime and plum exudes both fresh lightness and vibrant energy at the same time. The metal barrel makes the rich colours of the pens really stand out, and the finish gives twist ballpoint pens, rollerballs and fountain pens a delightful glossiness. The zingy, elegant colour duo is a great finishing touch for diaries and college notepads, and is a must-have for all fashion-conscious frequent writers.
