

Magical colouring fun: Unicorn design colour pencils sets

Bright rainbow colours, delicate pastel shades, sparkling glitter: the mix of colourful, delicate and iridescent is what makes the unicorn's appearances so enchanting. Now young fans of the mythical creature have the opportunity to playfully use these special effects themselves when painting, drawing and writing: In a limited unicorn edition, Faber-Castell presents 18 classic Colour Grip plus 6 Sparkle Pastel colour pencils - so creative kids can realise their ideas as they please and enjoy the stylish glitter design at the same time. The sticker sheet with cute unicorn motifs makes the new colouring fun the perfect gift. The Limited Edition is also available with 10 Colour Grip and 3 Sparkle pastel colour pencils. Thanks to the high pigmentation, the break-resistant leads are particularly bright; the familiar triangular shape of the Colour Grip takes the strain off children's hands and the patented Soft Grip Zone guarantees a secure grip. The pencils are made of certified wood from sustainable sources and are finished with environmentally friendly water-based varnish.
